

STEBERCRAFT Pty Ltd
P.O. Box 90
TAREE NSW 2430

Attention. Mr Alan Steber

16 June, 2003

Dear Alan,

With the recent return of my boat from Sanctuary Cove I would like to thank you and your team for the effort and assistance that went into the construction of my new boat 'TOP NOTCH'. Neighbours from the marina commented on the interest that the boat attracted and the professional manner in which you and your team controlled and supervised the visitors on the boat.

On this point I would also like to say that the boat is everything you said it would be and that which others had told me I could expect from a Steber craft. The standard and quality of finishes has impressed every one that has come on board. The ladies has been delighted by the presentation in the saloon, bathroom and state rooms and as for the men they have left envious of the look, layout and contents in the engine room. Once they climb onto the flybridge it's as though they are quite happy to settle in there for the afternoon.

May I also say that the assistance from you and your team during construction and post launching has being appreciated and more than was expected. As you know I have never been involved in the procurement of such and item and knowing what I know now, I believe the added requirements of getting the boat into survey would have been a nightmare had I gone with the alternative supplier.

Through your 'Co-operative' approach during the design phase and your organisations' attention to detail during construction, we have managed to produce what I was hoping for in the boat, that is her strength, speed and stability at sea along with her comfortable layout an attractive looks.

I know that there have been some minor teething problems with some of the appliances but that was to be expected with the complex electronic fitout that I required on the boat and I appreciate your efforts in resolving these minor issues.

Finally, I would like say that if any of your prospective clients would like to contact me directly as a reference I would be more than happy to describe to them in greater detail of the positive experiences I had with your organisation on this project.

Wishing you and your team all the best in the future and looking forward to a bigger boat in the future so we can do it all again.

Yours Faithfully,

Oz-Sea Cruises Pty Ltd
