Stebertcraft developed their expertise building commercial vessels and apply the same high production and engineering standards to their pleasure cruisers. The 33' integrates old concepts and futuristic design, which allows you the liberty to use your boat your way. Diversity is the key. Sports fishing, weekend recreation, ocean going, river cruising; appointed to suit your primary application. Your selection of soft furnishings complete a technically and mechanically superb vessel. The comprehensive list of engineering, plumbing and cabinetry are all accomplished under the one roof in our fully equipped factory with quality assurance.

FOR COMMERCIAL USE THIS VESSEL CAN BE MANUFACTURED TO  
MARITIME SERVICES BOARD SURVEY REQUIREMENTS (ALL STATES)

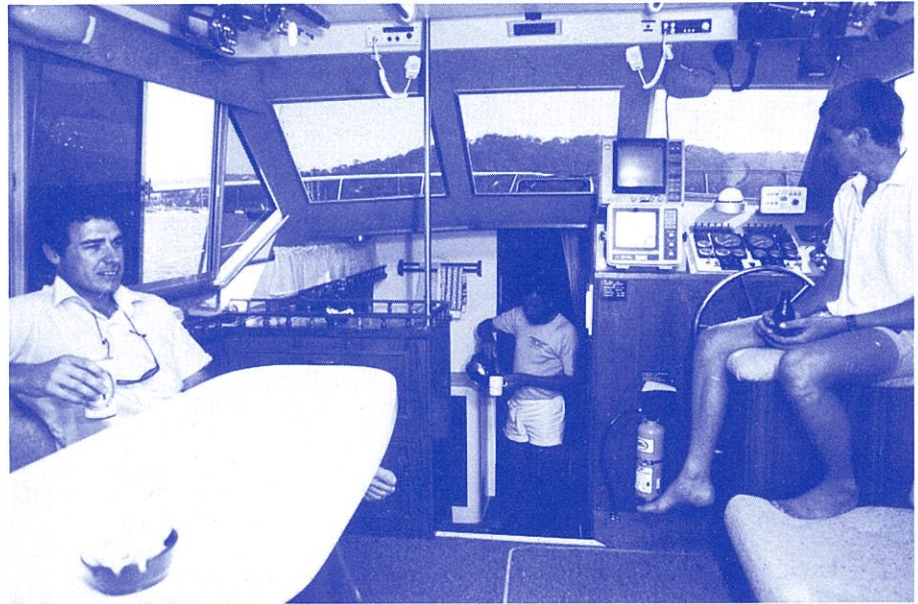

### FUNCTIONAL COCKPIT

The roomy cockpit provides space to fish, space for stowage and space to move. The arrangement provides; a self-draining cockpit, a hinged bilge/stowage hatch, flybridge ladder with gas-bottle locker concealed behind, a corner sink with hand shower, side pockets and conduit extrusions for stowage, moulded corner seats doubling as steps, optional hinged transom door and landing platform. Access to saloon through sliding door.

### SALOON, GALLEY & ACCOMMODATION

Casual comfort is the name of the game. Refreshingly spacious with natural light. A standard layout of "L" shape dinette, convertible settee, helm and seat, overhead instrumentation panel and split level cocktail/servy to the fully appointed galley enhances the ease of living in the most regularly used area of the boat. Opposite the galley is the spacious head/shower room appropriately appointed. Forward is a "V" bunk with infill. Naturally the interior utilises optimum stowage space.

### FLYBRIDGE

The sleek flybridge with a centre swivel seat and additional side seating makes the skipper majesty of all and provides him with a view of all points of the vessel. Complete with a wrap around console and windscreen, the low profile enhances stability.
