

Workshop Inspection Certificate

Office: **Sydney**

Date: **19 March 2025**

This Certificate is issued to :

Stebercraft Pty Ltd

6 Elizabeth Avenue
Taree NSW 2430

This is to certify that on the 12th March 2025 the Workshop of the above establishment was subjected to a final audit by the undersigned surveyor, and the quality systems, conditions and facilities of the establishment, as audited and examined, were found acceptable for the moulding of composite craft under Lloyd's Register's survey.

The Quality System has been reviewed and found to be satisfactory in accordance with the Lloyd's Register Rules and Regulations for the Manufacture, Testing and Certification of Materials, Chapter 14, Section 5 and the Rules and Regulations for the Classification of Special Service Craft, Part 8, Chapter 2, Section 1.

This certificate is subject to annual audit, noting that if the workshop is not under regular attendance by the Lloyd's Register Surveyors, it will be necessary before undertaking moulding survey work for the quality system, conditions and facilities to be re-validated if a period exceeding three months is to elapse since this inspection or since moulding work was last surveyed by Lloyd's Register.

Continued compliance with the Lloyd's Register Rule requirements remains the responsibility of Stebercraft Pty Ltd and any changes which may invalidate this certification are to be brought to the attention of Lloyd's Register.

Surveyor to Lloyd's Register International
