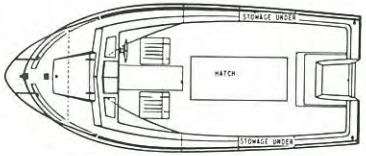
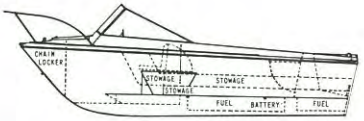
18' TRAVELER





GUNWALE LENGTH	19'10"	INTERNAL FREEBOARD	38"
CENTRE LINE LENGTH	18'1½"	WEIGHT—LBS.	1300
TRANSOM WIDTH	7'0"	TYPE OF DRIVE	IB/OB
BEAM	7'11"	H.P. RANGE—OB	80-150
		—IB	80-170

Options on Champion and Contender include bowrail, contoured swivel bucket seats mounted on teak storage cupboards, rear foldaway seats, sliding cabin windows, folding canopy, side curtains, storm cover or tonneau cover.

CHAMPION
Sleep aboard with family or friends. There's more room in the 18' Champion thanin some bigger boats. Well appointed with teak bulkheads, lockup cabin door, upholstered bunks, helmsman and navigator's seats, side and cabin rails. Fit the motor of your choice and set a course for boating pleasure.
CONTENDER
The sister ship to the Champion. Same well appointed features with the exception of bulkheads and railings.

TRAVELER
Day boat version of the Champion. Has versatility to suit the active boating sportsman. Ski or fish by day; offshore or estuary. Fit a full canopy and camp out over night. So big and roomy four adults can sleep across the main cockpit. Equipped with all standard fittings ready to go.

STEBER CRAFT
vee clinker plus

Soft ride—Vee Clinker Plus
Most people object to being bumped and buffetted in choppy seas; a day on the water can be very uncomfortable for the family in a boat not designed with soft riding qualities.
The Steber Craft regard for comfort has resulted in a brand new concept in hull design. VEE CLINKER PLUS is a revolutionary shape that makes use of the best vee configurations for easy going comfort PLUS the soft riding virtues of clinker. It is the marrying of these two factors that make VEE CLINKER PLUS the smoothest ride you'll ever have in a small craft.

Smooth power—"The Multi Million Bubble Ride"
The Steber Craft clinker shape produces millions of tiny air bubbles between the hull and water surface. These bubbles break the surface tension which enables a quicker take-off and greater speed. The bubbles act as cushions to smooth the ride and reduce drumming. Top competitive ski-boat skippers prefer clinker for these very reasons.

27 years of boating know-how
Look closely at a Steber Craft—try to fault it for design and finish. It's pretty hard. What you don't see is the patient care in building up every Steber Craft. Under the floor is a full strength frame not often found in production line boats. Under the deck is a pre-formed honeycomb section. Walk on it—see how it doesn't sag.
These are some of the things that the Steber Craft people think are important. There are a host of other just as important features that your Steber Craft dealer will gladly show you—it's worth a look!

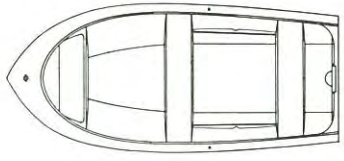
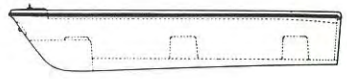
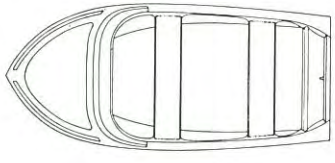
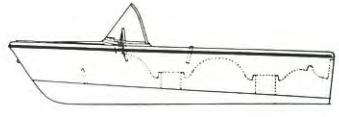
12'3" SPARTAN





12'3" BEAVER





GUNWALE LENGTH	13'0"	INTERNAL FREEBOARD	26"
CENTRE LINE LENGTH	12'3"	WEIGHT–LBS.	400
TRANSOM WIDTH	4'4"	TYPE OF DRIVE	OB
BEAM	5'8"	H.P. RANGE	10-35

Ideal Fisherman's boat—light and easy to handle, with motors up to 35 hp., gives you a quiet, soft ride.
Standard equipment includes practical, long lasting chrome deck hardware, windscreen, steering, padded front seat backrest and snap-on foam seat cushions. Optional folding canopy.

SPARTAN
27 years of boat building experience have culminated in Steber Craft's Spartan. 12'3" in length, generous 5'8" beam, side pockets, oar stowage space, built in flotation, and still plenty of room for all the gear. At a realistic price.

BEAVER
Great big-little boat for ski-ing, fishing or just picnic cruising. Light enough for Dad to easily load on and off the trailer and full of power for a fast ski take-off. The smooth dry ride of the Steber clinker and the high practical windscreen makes for safe comfortable boating with loads of room for all the family.

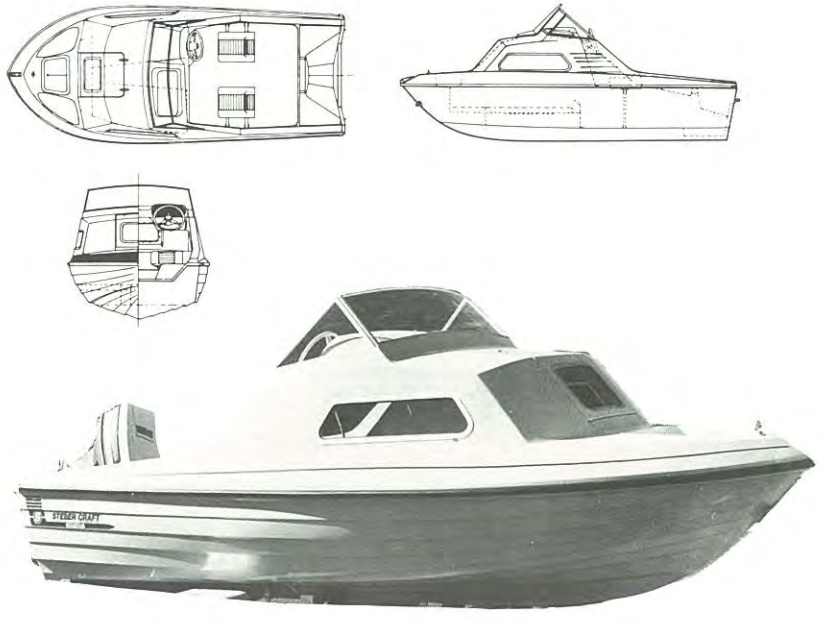
15'2" EXPLORER II



GUNWALE LENGTH	16'4"	INTERNAL FREEBOARD	26"
CENTRE LINE LENGTH	15'2"	WEIGHT—LBS.	700
TRANSOM WIDTH	5'4"	TYPE OF DRIVE	OB
BEAM MAX.	6'4"	H.P. RANGE	25-70

Undoubtedly one of the finest and most practical 15' half cabin cruisers available on the market today. Through careful design the Explorer features the largest cabin in its class without sacrificing any of the cockpit space. Fully moulded internal bunk liner, cabin and cockpit side pockets, ample stowage space beneath bunks, helmsman seat and flybridge windscreen are all standard equipment.

All new hull design, with large front opening cabin hatch giving easy access to foredeck anchor well.

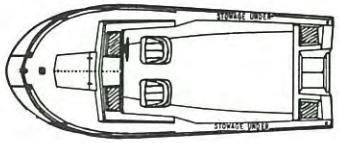
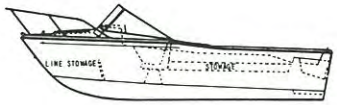
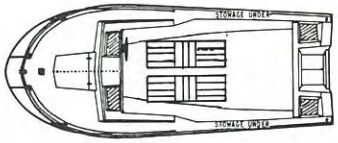
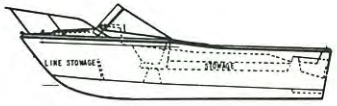
16'6" RAMBLER





RAMBLER - alternate seating





GUNWALE LENGTH	18'0"	INTERNAL FREEBOARD	32"
CENTRE LINE LENGTH	16'6"	WEIGHT—LBS.	775
TRANSOM WIDTH	5'10"	TYPE OF DRIVE	IB/OB
BEAM	7'1"	H.P. RANGE—OB	40-150
		—IB	80-150

RAMBLER
Fast offshore sports fisher. The go anywhere boat has a big flaired bow to keep the "greenies" where they ought to be. Loads of open space down aft for a game chair and the fishing gear. Standard equipment includes contoured foam swivel bucket seats or deluxe back-to-back seats, king size side pockets, long lasting chrome deck hardware, teleflex steering and front open hatch.
Or if you prefer, the options include fold-down sunbather seats, deep foam rear lounge or foldaway rear seats. Other options are bowrail, folding canopy, side curtains, storm cover or tonneau cover.

Rambler is available in both outboard and stern drive versions. Terrific horsepower range to suit all needs. Loads of room for extras like depth sounder, radio and game chair. This boat would be the most versatile sixteen footer afloat.
